PROFESSIONAL SUMMARY

MCA Candidate with strong foundation in Java, Spring Boot, REST API Design — developing robust backend systems. Experience building backend applications using Spring Boot, MySQL, and MongoDB.

TECHNICAL SKILLS

Languages	Java, C, C++, JavaScript, SQL, Python (basics)
Backend	Spring Boot, REST APIs, JWT, Spring Security, Hibernate, JDBC
Databases	MySQL, MongoDB
Tools	Git, GitHub, Maven, Postman, IntelliJ IDEA
Concepts	RBAC, JWT Authentication, Multi-Tenant Architecture, Multithreading, REST API Design, API Security, Microservice Fundamentals, Database Optimization, Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Design Patterns, Problem Solving, Time Complexity Analysis, SDLC

PROFESSIONAL EXPERIENCE

Software Developer Intern *Feb 2026 -- Ongoing*
SetTribe IT Solutions | Pune

- Developed and enhanced scalable backend modules for multiple client projects using Java, Spring Boot, Hibernate, and REST APIs.
- Integrated PostgreSQL database operations, validation logic, and API testing workflows using Postman.
- Collaborated in Agile sprint cycles, performing Git-based code reviews, bug fixes, feature implementation, and deployment support.

ACADEMIC PROJECTS

PayStride -- Multi-Tenant SaaS Payroll Management System *Java, Spring Boot, MySQL, Hibernate, REST API, JWT*

- Architected multi-tenant RBAC system using Spring Security and JWT.
- Optimized MySQL query execution via indexing, reducing response latency by 40%.
- Engineered BigDecimal payroll engine handling statutory deductions with zero precision loss.

EduTrack -- Student Management Portal *Java, Spring Boot, MongoDB, REST API*

- Developed RESTful CRUD APIs using Spring Boot for student data management.
- Designed modular service architecture for independent scaling of application modules.
- Implemented dual-layer validation, reducing data entry errors by 25%.

Chat Messenger with Log Facility -- Peer-to-Peer Real-Time Messaging Application *Java, Multithreading, Socket Programming*

- Developed peer-to-peer messaging system using Java sockets for real-time communication.
- Implemented concurrent message handling using multithreading for bidirectional communication.
- Designed persistent chat logging mechanism for message auditing and tracking.

TECHNICAL STRENGTHS

- Proficient in backend application development, REST API design, and database-driven systems.
- Hands-on experience building concurrent, multi-tenant, and performance-optimized Java applications.
- Strong debugging, query optimization, and software architecture capabilities.
- Experience designing scalable backend architectures with authentication, authorization, and database optimization.

EDUCATION

Master of Computer Applications (MCA) *2026 | Pursuing*
Dnyansagar Institute of Management and Research, Pune (SPPU) 7.24 CGPA **Bachelor of Computer Applications (BCA)** *2024*
C.T. Bora College, Shirur (SPPU) 73.34% **Higher Secondary Certificate (HSC)** *2021*
Maharashtra State Board 75%
