## PROFESSIONAL SUMMARY

MCA Candidate with strong foundation in Java, Spring Boot, and REST APIs — focused on backend application development. Experience building backend applications using Spring Boot, MySQL, and MongoDB.

## TECHNICAL SKILLS

| | |
|---|---|
| **Languages** | Java, C, C++, JavaScript, SQL, Python (basics) |
| **Backend** | Spring Boot, REST APIs, JWT, Spring Security, Hibernate, JDBC |
| **Databases** | MySQL, MongoDB |
| **Tools** | Git, GitHub, Postman, Maven, IntelliJ IDEA |
| **Concepts** | Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), REST API Design, Database Optimization, RBAC, JWT Authentication, Microservice Fundamentals, API Security, Multi-Tenant Architecture, Multithreading, SDLC, Design Patterns, Problem Solving, Time Complexity Analysis |

## PROFESSIONAL EXPERIENCE

**Software Developer Intern** *Feb 2026 -- Ongoing*
*SetTribe IT Solutions | Pune*

- Developed and enhanced scalable backend modules for multiple client projects using Java, Spring Boot, Hibernate, and REST APIs.
- Integrated PostgreSQL database operations, validation logic, and API testing workflows using Postman.
- Collaborated in Agile sprint cycles, performing Git-based code reviews, bug fixes, feature implementation, and deployment support.

## ACADEMIC PROJECTS

**PayStride** -- Multi-Tenant SaaS Payroll Management System *Java, Spring Boot, MySQL, Hibernate, REST API, JWT*

- Architected multi-tenant RBAC system using Spring Security and JWT.
- Optimized MySQL query execution through indexing and schema normalization.
- Engineered BigDecimal payroll computation engine with zero precision loss.

**EduTrack** -- Student Management Portal *Java, Spring Boot, MongoDB, REST API*

- Developed RESTful CRUD APIs using Spring Boot for student data management.
- Designed modular service architecture for independent module scaling.
- Implemented dual-layer validation, reducing data entry errors by 25%.

**Chat Messenger with Log Facility** -- Peer-to-Peer Real-Time Messaging Application *Java, Multithreading, Socket Programming*

- Developed peer-to-peer messaging system using Java sockets.
- Implemented concurrent message handling using multithreading for communication.
- Designed persistent chat logging mechanism for message auditing.

## TECHNICAL STRENGTHS

- Proficient in backend application development, REST API design, and database-driven systems.
- Hands-on experience building concurrent, multi-tenant, and performance-optimized Java applications.
- Strong debugging, query optimization, and software architecture capabilities.
- Experience designing scalable backend architectures with authentication, authorization, and database optimization.

## EDUCATION

**Master of Computer Applications (MCA)** *2026 | Pursuing*
Dnyansagar Institute of Management and Research, Pune (SPPU) 7.24 CGPA **Bachelor of Computer Applications (BCA)** *2024*
C.T. Bora College, Shirur (SPPU) 73.34% **Higher Secondary Certificate (HSC)** *2021*
Maharashtra State Board 75%
