Pratik Nanaso Raut

Pune, Maharashtra | +91 8600475940 | pratikraut.codex@gmail.com | https://linkedin.com/in/pratik-raut-85248b319 | https://github.com/pratik-codeX

PROFESSIONAL SUMMARY

Computer Science candidate with strong foundation in Data Structures & Algorithms, REST API Design, Multi-Tenant Architecture — building robust backend systems. Hands-on experience developing scalable backend modules using Java, Spring Boot, and MySQL through practical projects.

TECHNICAL SKILLS

Languages	Java, C, C++, SQL, JavaScript, Python (basics)
Backend	Spring Boot, REST APIs, JWT, Spring Security, Hibernate, JDBC
Databases	MySQL, MongoDB
Tools	Git, GitHub, Maven, Postman, IntelliJ IDEA
Concepts	Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), REST API Design, RBAC, JWT Authentication, Multi-Tenant Architecture, Microservice Fundamentals, API Security, Database Optimization, Multithreading, Design Patterns, Problem Solving, Time Complexity Analysis, SDLC

PROFESSIONAL EXPERIENCE

Software Developer Intern *Feb 2026 -- Ongoing*

SetTribe IT Solutions | Pune

- Developed and enhanced scalable backend modules for multiple client projects using Java, Spring Boot, Hibernate, and REST APIs.
- Integrated PostgreSQL database operations, validation logic, and API testing workflows using Postman.
- Collaborated in Agile sprint cycles, performing Git-based code reviews, bug fixes, feature implementation, and deployment support.

ACADEMIC PROJECTS

PayStride -- Multi-Tenant SaaS Payroll Management System *Java, Spring Boot, MySQL, Hibernate, REST API, JWT*

- Architected multi-tenant RBAC system using Spring Security and JWT.
- Optimized MySQL query execution via indexing, reducing response latency by 40%.
- Engineered BigDecimal payroll engine, handling deductions with zero precision loss.

EduTrack -- Student Management Portal *Java, Spring Boot, MongoDB, REST API*

- Developed RESTful CRUD APIs using Spring Boot for student records.
- Designed modular service architecture enabling independent module scaling.
- Implemented dual-layer validation, reducing data entry errors by 25%.

Customised Virtual File System (CVFS) -- In-Memory Linux-like File Manager *C, C++, Data Structures, OS Concepts*

- Simulated Linux file system operations in C++ with inode management.
- Achieved O(1) file lookup using hash table-based inode indexing.
- Implemented in-memory file allocation table managing permissions and ownership.

TECHNICAL STRENGTHS

- Strong foundation in Data Structures, Algorithms, and Object-Oriented Design.
- Proficient in backend application development, REST API design, and database-driven systems.
- Hands-on experience building concurrent, multi-tenant, and performance-optimized Java applications.
- Experience designing scalable backend architectures with authentication, authorization, and database optimization.

EDUCATION

Master of Computer Applications (MCA) *2026 | Pursuing*

Dnyansagar Institute of Management and Research, Pune (SPPU) 7.24 CGPA **Bachelor of Computer Applications (BCA)** *2024*

C.T. Bora College, Shirur (SPPU) 73.34% **Higher Secondary Certificate (HSC)** *2021*

Maharashtra State Board 75%
